Savour le Marche with Moreno

Moreno has always appreciated "the sweet breath of the earth." His family farm is specialized in the production of old varieties of apples such as the "Mela Rosa dei Monti Sibillini". Moreno is a member of Slow Food Movement and also a member of the world food communities, which is the most important event, organized by the Slow Food movement in Turin, and has received some of the best national gastronomic reviews. Moreno who is graduate of the University of Macerata him to know and work with many influential leaders on the Slow Food Movement and frontrunners of Italian gastronomy and tourism. He has also been featured on "Feast with Heston Blumenthal" on Channel 4 in Italy. Thanks to my connection with this fantastic land, which I know so well, I can introduce visitors to some unforgettable experiences and memories, where the scenery and beautifulness of the countryside and the wonderful fascination of the Sibillini Mountains create a magical atmosphere for you to enjoy.

A DAY HUNTING TRUFFLES AND... BUON APPETITO!

We'd like to help you get under Le Marche's skin, meeting local artisans and experiencing the true flavour of rural life. The region's economy has traditionally been based upon agriculture and the fantastic products made by local artisans. Most of these artisans work for small family businesses that have handed down skills from one generation. Many still work by hand and, despite the demands of the global marketplace, there is still relatively little mechanisation. With the help of friends who were born and raised in the area, are extremely passionate about nature and the traditional Le Marche way of life we are pleased to offer you the following excursions that will allow you to experience and better understand why life here has remained unchanged for centuries. Experience a fantastic day truffle hunting with experts and their dogs in local woodland, then sit down and sample local wines and a mouth watering menu based around your truffles.
